GLASS RINSER

Let the high-pressure water jets reach where you can't and thoroughly rinse residue in seconds. From baby bottles to wine glasses to travel cups, it conveniently rinses virtually any drinkware, so you can spend less time soaking and scrubbing. Its sleek, metal construction and low-profile design coordinates with any faucet and it can be easily installed in an empty countertop hole, such as those used for soap dispensers and sink sprayers.

Each of our sprays equipped with this technology make every shower feel like a retreat.
